Moss Cottage

This delightful home is a countryside dream. Quaint in style, this home is part of a magnificent 400-year-old building, beautifully renovated and modernised. Exuding calm, you will feel the ambience

before you even enter. Soft cream stone and white shutters set the scene for the beauty that resides indoors. The open-plan kitchen and living space is a wonderful opportunity to enjoy a romantic evening cooking dinner. The moss green chaise centrepiece is where you may kick your slippers off and pop your feet up for an evening in front of the open fireplace. Moving up your spiral staircase, you'll find a lovely bedroom decorated in French chic decor. Archway doorways, beamed ceilings and soft cream interiors set the scene for a restful night's sleep. On waking in the morning, peek out of your delightful windows across the countryside. Feel the warmth of the sun on your face and a gentle breeze as you sip on your morning coffee. Whilst you'll be residing in this serene rural area, you'll smell the salt water with the beaches only 2km away. Close to the village centre and quaint shops, you'll have plenty to entertain you across the Emerald Coast.
