Fountainhead

Dancing fountains, a palm-lined promenade, head-spinning architecture and sandy shores just a flip-flop away - this could only be Dubai Marina. And luckily for you, it's where you'll find this crisp, contemporary apartment. Amble down to the marina's waterfront (it's right on your doorstep) to watch the boats coming and going from one of its buzzy terraced restaurants and cafes - the sunsets are phenomenal from here. If you fancy splashing the cash, hop on the water bus to the shopping mecca, Marina Mall. And when the sea finally lures you, find a sandy spot along JBR's vibey beach - it's just a short stroll away. Back home at this newly-furbished apartment, we've fallen hard for the modern minimalist design. Wood panelling, house plants, and statement lighting add layers of interest and style, while a smart, separate kitchen and swish walk-in shower room deliver all the home comforts. You're all sorted for work with a desk and lightening fast wi-fi at the ready. And if you

fancy a change of scene, the private balcony with knockout city vistas is perfect for soaking up the evening sun. Or take things downstairs to the shared lagoon-style pool or supped-up shared gym and meet your neighbours.
