Address: The Denver Queen

Bedrooms: 3 Bathrooms: 1

The Denver Queen

Located in central Denver, this home is an ideal base for a family or two couples who want to experience life in the Mile High City. We especially like the large dining room and kitchen space - with organic supermarkets within walking distance, you can grab fresh ingredients easily, and your host will leave you with a stocked kitchen. However, the real draw here is the location. Despite being on a quiet, leafy street, you're just a few blocks from shopping, sports facilities, a zoo, a theatre district, and more.
